Yoga Planet - the first Yoga story-telling program in Vietnam.

We are also accredited by the international Yoga Alliance and our teachers are fully certified. We are equipped with professional Yoga skills and are passionate in helping children better understand themselves through greater awareness of their own attitudes, behaviors, and emotions, as well as those of their family and society.

We believe that Yoga is essential for all children as it significantly improves health, flexibility and balance. Every lesson will help our children stabilize their skeleton, develop their respiratory and cardiovascular systems - more importantly, we want to assist our children to learn and practice balancing their body and mind, so that they can become more in-tune and mindful of themselves and everything around them.
